

PRASHANT KUMAR

Aspiring Software Engineer Intern

+919005975579 pra895345@gmail.com Github | Linkdin Delhi, India

SUMMARY

I am an aspiring Software Engineer Intern with expertise in full-stack development using the MEAN stack, Angular, and Laravel. I possess strong proficiency in Java, Python, and essential computer science fundamentals. My experience includes building production-ready applications and contributing to ERP systems, showcasing my ability to develop effective software solutions. I am dedicated to innovation in technology and am eager to apply my skills in real-world settings

EXPERIENCE

Full Stack Developer

MERN-Based HRMS, ERP & Academic Management Systems

04/2025 - Present freelancing

Full Stack Developer working on HRMS, ERP, and educational systems

- Developed scalable HRMS, ERP, and academic systems using the MERN stack, including features like employee management, attendance, payroll, and dashboards
- Implemented secure authentication, role-based access, RESTful APIs, and responsive UIs; collaborated with clients to deploy optimized, real-world solutions

Full Stack Developer

Ramanujan College

01/2024 - 03/2024 Kalkaji, Delhi, India

Full Stack Developer for a Laravel-based web application

- Developed a full-stack educational platform using Laravel, MySQL, Bootstrap, jQuery, and Ajax
- Implemented user login and dynamic content features, and built core modules for study materials, previous year questions (PYQs), and online test systems

React developer

Lock Uthaan Pahal Foundation

11/2023 - 12/2023 Delhi, India

React Development for an NGO project

- Developed a React-based website SAMIP for an NGO, providing home services with secure user interfaces and smooth navigation

Junior Software Engineer

APC - Ramanujan College

2023 - 09/2023 Delhi, India

Junior Software Developer contributing to college ERP modules

- Worked as a Junior Software Developer in APC at Ramanujan College, contributing to ERP modules like Attendance and Timetable
- Developed and optimized web functionalities using Laravel, Bootstrap, and MySQL
- Collaborated with the team to build scalable, user-friendly, and integrated solutions for academic management applications

STRENGTHS

Technical Strengths

Skilled in full-stack development using various technologies and frameworks, with a strong foundation in programming languages and database management

KEY ACHIEVEMENTS

Full Stack Development Achievement

Successfully developed a full-stack educational platform that enhances the academic experience for students and faculty

SKILLS

Ajax	Blockchain	Bootstrap	
Solidity	CSS	Data Structures	
Docker	ERP	Git	GitHub
HRMS	Java	JavaScript	
jQuery	Laravel	MongoDB	
MVC	Numpy	OOP	Pandas
PHP	Postman	Python	React
REST	SQL	Tailwind	
TypeScript	Visual Studio Code		
WordPress	Node.js	Express.js	
Gmail	Angular	Batch	Payroll

INTERESTS

Technical Passions

Passionate about Blockchain, Machine Learning, and scalable software solutions
